EXABYTES NETWORK, CELCOM PLANET JOIN HANDS

Exabytes Network Sdn Bhd ('Exabytes') signed a Memorandum of Understanding agreement with Celcom Planet Sdn Bhd in a bid to more effectively harness Malaysia's growing e-commerce market trends. "Exabytes is a strong propagator of e-commerce amongst the thousands of local SMBs. Part of the partnership is planned to allow Exabytes' e-commerce merchants to drive up the visibility of their brands to the public," said Exabytes' Founder and CEO, Chan Kee Siak. "This partnership with Celcom Planet will offer not only an additional commercial channel for merchandising but also open doors for e-commerce merchants to further strengthen their online presence on an international scale."
