# Transform Businesses with the Power of a Collaboration Super App

By uniting a wide variety of interactive features, Lark creates highly-productive collaboration experiences for optimal team efficiency.

Integrated in One

Lark combines a multitude of essential collaboration tools in a single interconnected platform, including Chat, Calendar, and Docs. These functions are always in sync, and are easy to access from one to the next.

Boost Team Productivity

By integrating everything you need under one interface, Lark saves you time and effort normally spent navigating between apps. And with the whole team working on the same platform, collaboration becomes simpler, streamlined, and more efficient.

Design for Remote Teams

Lark eliminates remote communication barriers by displaying different time zones, providing video conference capabilities, and designing easily accessible tools online.

Powerful Open Capabilities

With open API, Lark allows integrating your own apps, existing systems, third-party systems, and quick tools.

Sole Management Platform

Thanks to Lark's open platform, CIOs and CTOs are able to manage a single platform instead of many, greatly reducing management costs.

Security Comes First

With AWS infrastructure security, and having passed ISO 27001 & 27018 certification, the security of your data is always our top priority.

Product Features

Lark combines a multitude of essential collaboration tools in a single interconnected platform, including Chat, Calendar, and Docs. These functions are always in sync, and are easy to access from one to the next.

OKR
Objectives and Key Results

Turn strategy into measurable results
Helps teams collaborate, communicate, and streamline workflows for efficient goal setting and achieving tangible outcomes.

Smart Shared Calendar
Make the most of your time

Calendar makes it easy to subscribe tocolleagues' calendars, check time zones, schedule events, and create group chats with all participants in a meeting.

Organization Management
Administrative efficiency

Includes enterprise OA services (including attendance, approval, salary slips, etc.), and supports networking with third-party systems.

Drive
Build a culture of effective sharing

Featuring team storage space, high-speed uploads/downloads, internal file sharing, and extensive global search functions.

Data Protection
Security and compliance guarantee

Lark's ISO27001 certification is proof that it adheres to international standards of information security management.

Open Platform
Customization for organizations

Applets, bots, H5, and SideBar support personalized application development and integration.

Chat
Dynamic communication catalyst

Supports quick emoji reactions, text and images embedded in the same message, visible "read"/"unread" message statuses, and intelligent message reminders.

Video Conference
Where remote collaboration happens

Provides clear high-definition video meetings which is integrated with IM and online creation tools, reducing costs of remote collaboration.

Online Creation
Work in harmony

Includes documents, spreadsheets, and other tools, as well as cloud storage space and customizable responsive comment reminders.
